

HUYNH TAN PHU

Senior Software Engineer | Backend Engineer

Ho Chi Minh City, Vietnam | +84 983 599 071 | tanphuqn@gmail.com

PROFESSIONAL SUMMARY

Senior Software Engineer with 15+ years of experience building and evolving enterprise applications across full-stack and backend development. Strong hands-on experience with Python/Flask, PHP/Laravel, Golang, JavaScript/Vue.js, SQL, and NoSQL, with 3+ years of recent experience in Python/Flask. Experienced in API and system design, end-to-end development, deployment, and production support.

Built and supported systems at scale, including a marketing platform handling ~500K user transactions and a US healthcare platform handling 1M+ requests/month, with hands-on experience in PostgreSQL and system design. Proven track record of owning projects from requirements and technical design through delivery, with experience collaborating with US-based teams in English.

CORE TECHNICAL SKILLS

- **Backend & Programming:** Python, Flask, Golang, gRPC, PHP, Laravel, C#, ASP.NET MVC, Java, Node.js
- **API & Architecture:** REST APIs, GraphQL, gRPC, API Design, Backend Development, System Design, Enterprise Application Architecture
- **Databases:** PostgreSQL, MySQL, SQL Server, MongoDB, Cassandra, Oracle PL/SQL
- **Frontend:** Vue.js, JavaScript, TypeScript, jQuery, AJAX
- **Cloud & DevOps:** Docker, Docker Compose, Kubernetes, Google Cloud Platform (GCP), Windows Server, IIS, Apache
- **Source Control & Tools:** Git, SVN, Eclipse, Basecamp
- **Other:** SAML / SSO, Unit Testing, System Integration Testing, Performance Testing

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE ENGINEER

Sango Technologies

Mar 2021 – Present

- Develop and maintain backend and frontend applications across the full software development lifecycle, from requirements and API design to implementation, deployment, and production support.

- Design and develop backend APIs using **Python/Flask, PHP/Laravel, and Golang**, depending on project requirements.
- Contribute to **system design and technical solution discussions**, translating business requirements into application and API designs.
- Work with relational and NoSQL databases, including **MySQL and MongoDB**, to support application functionality and data requirements.
- Build and manage application servers and databases, including deployment and environment-related activities.
- Developed solutions for a **marketing-domain platform supporting approximately 500K user transactions**.
- Ensure cross-platform optimization and responsive experiences across web and mobile applications.
- Own assigned projects end-to-end, from initial requirements and architecture/API design through development and delivery.

Tech Stack: Python, Flask, PHP, Laravel, Golang, Vue.js, JavaScript, MySQL, MongoDB, Docker

SENIOR BACKEND ENGINEER

WCMS Solutions - Florida, USA (Remote)

Apr 2020 – Feb 2022

- Built and developed backend products based on client requirements, researching and applying appropriate technologies and technical solutions.
- Developed backend services in **Golang** using **gRPC and GraphQL** on **Google Cloud Platform (GCP)**.
- Worked with **Kubernetes and Cassandra** in a cloud-based application environment.
- Implemented **Single Sign-On (SSO)** integration using Laravel authentication and SAML-based authentication flows.
- Contributed to responsive web and mobile interfaces using Bootstrap and custom responsive CSS.
- Contributed to **Wambi**, a US healthcare platform serving hospitals in Philadelphia, supporting a production system handling **1M+ requests per month**.
- Worked primarily with **PostgreSQL** on the healthcare platform and contributed to backend development and system design.

Key Project - Wambi: US healthcare platform for hospitals in Philadelphia, PA, focused on healthcare workforce engagement and related services.

Tech Stack: PHP, Laravel, Golang, gRPC, GraphQL, PostgreSQL, MySQL, GCP, Kubernetes, Cassandra, Docker, Git, SVN, JavaScript, jQuery, AJAX

SENIOR BACKEND ENGINEER / PROJECT MANAGER

ASOFT Corporation

Jul 2012 – Mar 2020

- Built and evolved an enterprise **ERP platform from scratch**, covering business modules including **Sales, Warehouse, HR, Finance, and CRM**.
- Progressed from software development responsibilities into **Team Lead and Project Manager** roles over 7+ years.
- Analyzed business and technical requirements and proposed solutions for assigned modules and software projects.
- Designed and implemented backend functionality and database solutions for enterprise applications.
- Led development activities and coordinated with QA and other stakeholders throughout the software development lifecycle.
- Investigated and fixed system issues, reviewed application reports, and supported QA with requirement analysis and technical clarification.

Tech Stack: C#, ASP.NET MVC 5, SQL Server, PHP, MySQL, jQuery, JavaScript, Windows Server 2012

SENIOR SOFTWARE ENGINEER / TEAM LEAD

Green Sun Group (ASOFT)

Feb 2010 – Jul 2012

- Built and developed ERP modules covering Sales, Warehouse, HR, Finance, and CRM.
- Researched and applied new technologies to improve application development and delivery.
- Investigated and resolved application issues and supported system maintenance.
- Reviewed application reports and worked with QA on requirement analysis and issue resolution.

Tech Stack: C#, ASP.NET MVC 5, Java, PL/SQL, SQL Server, Eclipse, Apache, IIS

SOFTWARE DEVELOPER

Green Sun Group

Aug 2006 – Jan 2010

- Designed application layouts and implemented software features based on business requirements.
- Established coding and design guidelines for application development.
- Implemented a gateway enabling Flex clients to communicate with server-side business logic.
- Conducted UI, system integration, and performance testing.
- Authored unit tests and technical/deployment documentation.

Tech Stack: Java, VB.NET, PHP, MySQL, jQuery, JavaScript, Oracle PL/SQL, SQL Server, Eclipse, Apache

EDUCATION

Bachelor's Degree in Management Information Systems

University of Economics in Ho Chi Minh City | 2006 – 2010

Associate's Degree in Information Technology

University of Industry in Ho Chi Minh City | 2003 – 2006
